“ 19A. Notwithstanding anything contained in section 6 or section 18, the zamindar or other proprietor of a village may at any time apply to the Deputy Commissioner for the enhancement of the rent of the village or of any holding situate therein, on the ground that since such rent was adjusted and recorded by the Settlement-officer under the Sonthal Parganas Settlement Regulation, or since a table of rates and rent-roll were published under section 17 the productive powers of the land in such village or holding have been increased by an improvement effected by, or at the expense of, the zamindar or other proprietor :

Application for enhancement of rent of village on ground of proprietor's improvement.

Provided that in case of villages which are in the lease or management of a manjhi or headman, the zamindar or other proprietor has obtained the consent of the Deputy Commissioner prior to effecting the improvement, and that the improvement is of so substantial a nature as beneficially to effect a considerable proportion of the lands in the village.

*Explanation.*—The provision of security against failure of crops from drought or inundation shall be deemed to be equivalent to an increase in the productive powers of the land for the purposes of this section.

“ 19B. (1) If after enquiry the Deputy Commissioner finds that the productive powers of the land have actually been so increased in a permanent manner, the Deputy Commissioner may, by order in writing, enhance the rent which has been declared by the Settlement-officer to be payable, or which is entered in the rent-roll, as the case may be :

Procedure on such application and order of enhancement.

Provided that, where the Deputy Commissioner considers that the immediate enforcement of the full enhancement adjudged is likely to be attended with hardship, he may direct that the enhancement shall be gradual ; that is to say, that the rent shall increase yearly by degrees, for any number of years not exceeding five, until the limit of the full enhancement adjudged has been reached.

(2) Where the Deputy Commissioner enhances rent under the provisions of sub-section (1), he shall, in his order, declare the date from which such enhancement shall take effect.

“ 19C. In determining the amount of enhancement the Deputy Commissioner shall have regard to—

Rules determining amount of enhancement.

(a) the increase in the productive powers of the land caused by the improvement ;

(b) the cost of the improvement ;

(c) the existing rent and the ability of the land to bear a higher rent ; and

(d) the expense which the raiyat has to incur in order to be able to utilize the improvement.

“ 19D. Any application under section 19A, for the enhancement of the rent of a village or of any holding situate therein, which is made during settlement proceedings, to or pending before the Deputy Commissioner

while a settlement is being made of such village under the Sonthal Parganas Settlement III of 1872. Regulation shall be transferred by him to the Settlement-officer for disposal.

"16E. Where rent has been enhanced under section 16B, on the ground of an improvement, no further enhancement shall be granted in respect of the same improvement

Duration of enhancement. until there is a resettlement of the village under the Sonthal Parganas Settlement Regu- III of 1872. lation, or until a fresh table of rates and rent-roll are published under section 17 :

Provided that any person by whom such rent is payable may at any time apply to the Deputy Commissioner to have the enhancement reduced or annulled on the ground that the improvement has not produced, or has ceased to produce, the estimated effect.

"19F. Where a raiyat, having entered into an agreement with the zamindar or other proprietor of a village to contribute towards the cost of an improvement, the share thereof which is fairly debitable to his holding, has paid the amount of such share to the zamindar or other proprietor, the rent of his holding shall not be enhanced under the provisions of section 19B in respect of the said improvement."

Addition of new heading and section after section 25, Regulation II, 1886.  
inserted, namely :

3. After section 25 of the Sonthal Parganas II of 1886. Rent Regulation, 1886, the following shall be

*"Acquisition of land for buildings and other purposes.*

"25A. (1) The zamindar or other proprietor of a village, who is desirous of acquiring the holding or part of the holding of any raiyat in such village, or any land over which the inhabitants of such village have any common right, for any reasonable purpose having relation to the good of the holding, village or estate, or for the erection of buildings or for any religious, educational or charitable purpose, may apply to the Deputy Commissioner for authority to acquire the same.

(2) On being satisfied that the purpose stated in the application made under sub-section (1) is reasonable and sufficient, and that the objections, if any, taken to the application are such that they may fairly be disregarded, the Deputy Commissioner may authorise the applicant to take possession of the land on such terms and on payment to the raiyat or other persons interested (if any) of such compensation as he thinks fair and reasonable."

### ARTICLE VII.

A person surrendered may in no case be kept in prison or be brought to trial in the State to which the surrender has been made for any other crime, or on account of any other matters than those for which the extradition shall have taken place, until he has had an opportunity of returning to the State by which he has been surrendered.

### ARTICULO VII.

La persona entregada no podrá ser encarcelada ó juzgada en el Estado al que se ha hecho la entrega por crimen ó causa distinta de la que ha motivado la entrega, hasta que tenga oportunidad de regresar al país que el entregó.

The stipulation does not apply to crimes committed after the extradition.

Este convenio no es aplicable á los crímenes cometidos después de la extradición.

#### ARTICLE VIII.

The requisition for extradition shall be made through the Diplomatic Agents of the High Contracting Parties respectively ; in default of these by the Consular Officers, and in the absence of both of these, directly, from Government to Government.

The requisition for the extradition of an accused person must be accompanied by a warrant of arrest issued by the competent authority of the State requiring the extradition, and by such evidence as, according to the laws of the place where the accused is found, would justify his arrest if the crime had been committed there.

Also, in case of extradition being demanded by Great Britain for a crime which is an offence against some statute, a copy of the said statute shall be sent ; and if for a crime at common law only, an extract from some text-book generally recognized as authoritative may be sent, as indicating the punishment applicable to the offence giving rise to the requisition.

If the requisition relates to a person already convicted, it must be accompanied by the sentence of condemnation passed against the convicted person by the competent Court of the State that makes the requisition for extradition.

A sentence passed *in contumaciam* is not to be deemed a conviction, but a person so sentenced may be dealt with as an accused person.

#### ARTICLE IX.

If the requisition for extradition be in accordance with the foregoing stipulations, the competent authorities of the State applied to shall proceed to the arrest of the fugitive.

#### ARTICLE X.

When either of the Contracting Governments considers the case urgent it may apply for the provisional arrest of the criminal and the safe keeping of any object relating to the offence.

Such request will be granted, provided the existence of a sentence or warrant of arrest is proved and the nature of the offence of which the fugitive is accused is clearly stated.

The warrant of arrest to which this Article refers should be issued by the competent judicial authorities of the Country applying for extradition. In the United Kingdom the accused shall on arrest be sent as speedily as possible before a Police Magistrate. The prisoner shall be discharged if the State applying does not complete the requisition within the term of ninety days counting from the date of the arrest of the prisoner.

#### ARTICULO VIII.

La demanda de extradición la formularán los Agentes Diplomáticos respectivos, en defecto de éstos los funcionarios Consulares, y á falta de unos y otros directamente de Gobierno á Gobierno.

La demanda de extradición de un acusado deberá ir acompañada de la orden de prisión expedida por autoridad competente del Estado que pide la extradición, y de aquellas pruebas que, según las leyes del país donde se encuentre el acusado, justificarian su aprehensión, si el crimen hubiese sido cometido allí.

Si la Gran Bretaña pidiere la extradición de una persona acusada de un crimen contra un estatuto, se acompañará también copia de ésta ; y si sólo se trata de un crimen de derecho común, se mandará un extracto de un libro de texto generalmente reconocido como autorizado, que señale la pena que merece el delito que ha motivado la demanda de extradición.

Si la demanda se refiere á una persona ya convicta, se exhibirá la copia de la sentencia condenatoria del tribunal competente del Estado que formula la demanda de extradición.

La sentencia por contumacia no se estimará como definitiva, pero la persona así sentenciada se considerará como acusada.

#### ARTICULO IX.

Siempre que la demanda de extradición esté de acuerdo con las estipulaciones citadas, las autoridades competentes del Estado solicitado procederán á la aprehensión del fugitivo.

#### ARTICULO X.

Cuando cualquiera de los dos Gobiernos Contratantes considere el caso urgente, puede pedir la detención provisional del delincuente y el embargo de los objetos que se relacionan con el delito.

Se accederá á la demanda siempre que se pruebe la existencia de la sentencia ó de la orden de prisión, y la naturaleza del delito de que es acusado el fugitivo esté bien definida.

La orden de prisión á que se refiere el presente Artículo debe ser librada por las autoridades judiciales competentes del país que pide la extradición. En el Reino Unido, tan pronto como el acusado sea aprehendido, será puesto á disposición de un Magistrado de Policía. El preso será puesto en libertad si el Estado solicitante no formaliza la demanda de extradición dentro del plazo de noventa días, contados desde la fecha de la detención del preso.

## ARTICLE XI.

The extradition shall take place only if the evidence be found sufficient according to the laws of the State applied to, either to justify the committal of the prisoner for trial, in case the crime had been committed in the territory of the same State, or to prove by the documents presented which shall contain a description of the person claimed and any particulars which shall serve to identify him, that the prisoner is the identical person convicted by the Courts of the State which makes the requisition and that the crime of which he has been convicted is one in respect of which extradition could, at the time of such conviction, have been granted by the State applied to; and no criminal shall be surrendered until after the expiration of fifteen days from the date of his committal to prison to await the warrant for his surrender.

## ARTICLE XII.

In the examinations which they may have to make in accordance with the foregoing stipulations, the Authorities of the State applied to shall admit as valid evidence the sworn depositions or the affirmations of witnesses taken in the other State, or copies thereof, and likewise the warrants and sentences issued therein, and certificates of, or judicial documents stating the fact of a conviction provided the same are authenticated as follows:

1. A warrant must purport to be signed by a Judge, Magistrate or Officer of the other State.

2. Depositions or affirmations, or the copies thereof, must purport to be certified under the hand of a Judge, Magistrate or Officer of the other State to be the original depositions or affirmations, or to be true copies thereof, as the case may require.

3. A certificate of or judicial documents stating the fact of a conviction must purport to be certified by a Judge, Magistrate or Officer of the other State.

4. In every case such warrant, deposition, affirmation, copy, certificate, or judicial document must be authenticated either by oath of some witness, or by being sealed with the official seal of the Minister of Justice or some other Minister of the other State: but any other mode of authentication for the time being permitted by the law of the country where the examination is taken may be substituted for the foregoing.

## ARTICLE XIII.

If the individual claimed by one of the High Contracting Parties in pursuance of the present Treaty should be also claimed by one or several other

## ARTICULO XI.

Se concederá la extradición sólo en el caso en que el Estado solicitado considere que las causales presentada están de acuerdo con sus leyes, tanto para justificar el sometimiento del preso á la acción de los tribunales, caso de que el crimen hubiese sido perpetrado en el territorio del mismo Estado, ó bien para probar por los documentos presentados que contendrán la identidad de la persona reclamada, y cualesquiera datos que puedan servir para comprobar que el preso es la misma persona convicta por los Tribunales del Estado peticionario, y que el crimen de que ha sido convicto es de aquellos por los que el Estado solicitado habría concedido la extradición del reo; mas en ningún caso podrá éste ser entregado sino después de transcurridos quince días desde la fecha de su detención hasta que se expida la orden de su entrega.

## ARTICULO XII.

Al proceder al examen, de conformidad con las estipulaciones que preceden, las autoridades del Estado solicitado aceptarán como pruebas válidas las declaraciones juradas ó afirmaciones de testigos, tomadas en el otro Estado, ó copias de las mismas, así como las órdenes de prisión y sentencias consiguientes, y los certificados ó documentos judiciales que comprueben el delito, siempre que sean autenticados como sigue:

1. La orden de prisión ó copia de ella, deberá ser firmada por un juez, magistrado ó funcionario del otro Estado.

2. Las declaraciones ó afirmaciones ó copias de las mismas, deberán ser certificados con la firma de un juez, magistrado ó funcionario del otro Estado, acreditando que son las declaraciones ó afirmaciones originales, ó que son copias fieles de las mismas, según el caso sea.

3. El certificado ó documento judicial que compruebe un delito deberá ser autenticado por un juez, magistrado ó funcionario del otro Estado.

4. En todo caso, la orden de prisión, declaración, afirmación, copia, certificado, ó documento judicial, deberá ser autenticado, bien sea mediante juramento de testigo, ó bien por el selio oficial del Ministro de Justicia ó de cualquier otro Ministro del otro Estado, mas cualquier otra autenticación que á la sazón sea permitida por las leyes del país donde se efectúa el examen puede adoptarse en lugar de la referida.

## ARTICULO XIII.

Si el individuo reclamado por una de las Altas Partes Contratantes, en virtud del presente Tratado, fuera igualmente reclamado por uno ó más Gobiernos, por crímenes cometidos dentro

Powers on account of other crimes or offences committed upon their respective territories, his extradition shall be granted to the State whose demand is earliest in date.

#### ARTICLE XIV.

Definition and  
sub-division of  
"fulminate" (class  
5).

6. (1) The expression "fulminate," as used in these rules, means any chemical compound or mechanical mixture, whether included in any of the foregoing definitions or not, which, from its great susceptibility to detonation, is suitable for employment in percussion-caps or any other appliance for developing detonation, or which, from its extreme sensibility to explosion and from its great instability (that is to say, readiness to undergo decomposition from very slight exciting causes), is especially dangerous.

(2) Fulminate shall, for the purposes of these rules, be sub-divided as follows, namely:

(a) Division 1, comprising such compounds as the fulminates of silver and of mercury, and preparations of those substances, such as are used in percussion-caps, and any preparation consisting of a mixture of a chlorate with phosphorus, or certain descriptions of compounds of phosphorus, with or without the addition of carbonaceous matter, and any preparation consisting of a mixture of a chlorate with sulphur, or with sulphuret, with or without carbonaceous matter; and

(b) Division 2, comprising such substances as the chloride and the iodide of nitrogen, fulminating gold and silver, diazobenzol, and the nitrate of diazobenzol.

Definition of  
"ammunition,"  
"percussion-cap,"  
"detonator,"  
"safety fuze" and  
"safety cartridge,"  
and sub-division of  
"ammunition" (class 6).

7. (1) The expression "ammunition," as used in these rules, means any explosive included in any of the foregoing definitions, when the same is enclosed in any case or contrivance, or is otherwise adapted or prepared, so as to form—

(a) a cartridge or charge for small-arms, cannon or any other weapon, or for blasting or

(b) a safety or other fuze for blasting or for shells, or

(c) a tube for firing explosives, or

(d) a percussion-cap, a detonator, a fog-signal, a shell, a torpedo, a war-rocket, or any other contrivance other than a firework.

(2) The expression "percussion-cap," as used in these rules, does not include a detonator.

(3) The expression "detonator," as used in these rules, means a capsule or case which is of such strength and construction, and contains fulminate in such quantity, that the explosion of one capsule or case would communicate the explosion to other like capsules or cases.

(4) The expression "safety fuze," as used in these rules, means a fuze for blasting which burns and does not explode, and which does not contain its own means of ignition, and which is of such strength and construction, and contains an explosive in such quantity, that the burning of such fuze would not communicate laterally with other like fuzes.

(5) The expression "safety cartridge," as used in these rules,—

(i) means a cartridge for small-arms, the case of which can be extracted from the small-arm after firing, and which is so closed as to prevent any explosion in one cartridge being communicated to other cartridges; and

(ii) includes a rifle-calibre machine gun cartridge, if it is as described in clause (i) whether it is for use with a machine-gun having chambers identical with those of rifles or with a machine gun having special chambers.

Provided that the diameter of the cartridge in either case (i) or case (ii) does not exceed one inch.

(6) Ammunition shall, for the purposes of these rules, be sub-divided as follows, namely:

(a) Division 1, comprising exclusively—

Safety cartridges.

Safety fuzes for blasting.

Railway fog-signals, and

(b) Division 2, comprising any ammunition, as hereinbefore defined, which does not contain its own means of ignition and is not included in Division 1, such as—

Cartridges for small-arms, other than safety cartridges,

Cartridges and charges for cannon, shells, mines, blasting or other like purposes,

Shells and torpedoes containing any explosive,

Fuzes for blasting, other than safety fuzes,

Fuzes for shells,

Tubes for firing explosives, and

War-rockets,

which do not contain their own means of ignition; and

- (c) Division 3, comprising any ammunition, as hereinbefore defined, which contains its own means of ignition and is not included in Division 1, such as—

Detonators,  
Cartridges for small-arms, which are not safety cartridges,  
Fuzes for blasting, which are not safety fuzes,  
Fuzes for shells, and  
Tubes for firing explosives,  
containing their own means of ignition.

*Explanation.*—The expression “ammunition containing its own means of ignition” means ammunition, having an arrangement, whether attached to or forming part of the ammunition, which is adapted to explode or fire the ammunition by friction or percussion.

8. Fireworks shall, for the purposes of these rules, be sub-divided as follows, namely: Sub-division of  
“firework” (class  
7).

- (1) Division 1, comprising firework compositions, that is to say,—

(a) any chemical compound or mechanically mixed preparation of an explosive or inflammable nature, which is used for the purpose of making manufactured fireworks, and is not included in any of the foregoing definitions,

(b) any star, and

(c) (except as declared in the proviso to this rule) any coloured fire composition; and

- (2) Division 2, comprising manufactured fireworks, that is to say, any explosive of class 1, 2, 3, 4, 5, or 6 and any firework composition, when such explosive or composition is enclosed in any case or contrivance, or is otherwise manufactured so as to form a squib, cracker, toy cap or amorce, serpent, rocket (other than a war-rocket), maroon, lance, wheel, Chinese fire, Roman candle, or other article specially adapted for the production of pyrotechnic effects or pyrotechnic signals or sound signals:

Provided that a substantially constructed and hermetically closed metal case containing not more than one pound of coloured fire composition of such a nature as not to be liable to spontaneous ignition shall be deemed to be a “manufactured firework” and not a firework composition.

#### TRANSPORT.

9. The following general rules shall be observed with respect to the packing of explosives for conveyance:— Packing of explosives  
for conveyance.

- (1) Unless the context otherwise requires,—

the expression “outer package” means a box, barrel, case or cylinder, of wood, metal or other solid material, of such strength, construction and character that it will not be broken or accidentally opened, nor become defective or insecure whilst being conveyed, and will not allow any explosive to escape;

the expression “inner package” means a substantial case, bag, canister or other receptacle, made and closed so as to prevent any explosive from escaping;

the expression “authorized explosive” means exclusively an explosive included in a List of Authorized Explosives prepared by the Chief Inspector of Explosives with the Government of India, and published annually in the *Gazette of India*, and in force for the time being;

the expression “propellant” means an authorized explosive of class 3 adapted and intended exclusively for use as a propelling charge in cannon or small arms; and the expression “special authority” means a written authority granted by the Chief Inspector of Explosives, to which may be attached such conditions as may, in the opinion of the Chief Inspector of Explosives, be necessary to meet the special requirements of the case.

- (2) The interior of every package shall be free from grit and otherwise clean.

(3) Save as hereinafter provided, there shall not be any iron or steel in the construction of any package unless the same is covered with suitable material so as effectually to prevent the exposure of such iron or steel.

(4) Every package when actually used for the packing of one explosive shall not be used for the packing of any other explosive or any other article or substance.

Provided that this rule shall not prevent the packing of inner packages containing a propellant in an outer package with inner packages containing gunpowder or another propellant:

Provided also that this rule shall not prevent the packing of any article which is not of an inflammable or explosive nature, or liable to cause fire or explosion, in the same package as an explosive of the 1st Division of the 6th (ammunition) class.

(5) Subject to the foregoing provisions, the following shall be the method of packing authorized explosives of various classes, respectively, and the maximum amounts which may be in any one package :

(9) To meet special cases exemption may be granted by special authority from the observance of any one or more of the conditions imposed by this rule.

#### Penalty.

10. Whoever commits a breach of any of the foregoing rules relating to the packing of explosives for conveyance shall be punishable with fine which may extend to Rs. 1,000.

#### Mode of conveyance.

11. The following general rules shall be observed with respect to the conveyance of explosives:

I.—No explosive shall be conveyed from place to place unless packed in the manner provided for in the foregoing rules.

II.—There shall not be conveyed in any carriage or vessel which is being used for the conveyance of an explosive, any explosive of a different class and division, of whatsoever nature, which contains its own means of ignition, unless it is sufficiently separated therefrom to prevent any fire or explosion which may take place in one such explosive being communicated to another.

III.—Except in the case of small consignments carried by railway which may be unloaded at any time, explosives shall be loaded or unloaded only between sunrise and sunset. For the purposes of this rule no consignment of more than half a wagon-load booked to one station shall be deemed to be a small consignment.

IV.—Whilst the explosive is being loaded on or unloaded out of any carriage or vessel, no fire or artificial light, or any article which is liable to cause or communicate fire or explosion [such as charcoal, lucifer matches, articles for striking a light, petroleum to which the Indian Petroleum Act, 1899 (VIII of 1899), or any other Act for the time being in force regarding the importation, possession, and transport of petroleum, applies, or any

spirit or oil or substance that gives forth an inflammable vapour at a temperature below 100° Fahrenheit] shall be, or shall be allowed to be, brought, had or used dangerously near to such carriage, ship, or boat, and no smoking shall be allowed in, on, or dangerously near to, the same :

Provided that when the use of a light for the purposes of such loading or unloading is unavoidable, a lamp of such construction, position, or character as not to cause any danger from fire or explosion may be used ; and no person, while handling any explosive (except an explosive of Division 1, Class 6, if packed in accordance with the packing rules) shall wear boots or shoes with iron or steel nails, heels or tips.

V.—In the loading or unloading of any explosive, the casks and packages containing the same shall be passed from hand to hand and not rolled upon the ground ; they shall not be thrown or dropped down, but shall be carefully deposited and stowed.

VI.—The explosive shall not be conveyed except in the interior of a carriage so enclosed on all sides with wood or metal, or in the hold of a ship or boat having a close deck so closed, as effectually to protect the explosive against accident by fire from without. If the explosive cannot be so secured, it shall be completely covered with painted cloth, tarpaulin, or other suitable material so as to effectually protect it against communication of fire.

VII.—There shall not be any iron or steel in the interior of the portion of the carriage or vessel with which the case containing the explosive is or may come in contact, unless the same is effectually covered with leather, wood, cloth, or other suitable material.

VIII.—In the stowing of the explosive, due precautions shall be taken by means of a partition or otherwise and by careful stowing to secure such explosive from being brought into contact with, or endangered by, any other article or substance conveyed in such carriage or vessel which is liable to cause fire or explosion ; and if the explosive is dangerously affected by water, due precautions shall be taken to exclude water from coming into contact with such explosive.

IX.—The amount of the explosives conveyed in any one carriage or vessel at any one time shall not exceed 2,000 lbs. unless the carriage be so enclosed on all sides with wood or metal, or the vessel have a close deck so closed, as effectually to protect the explosive against accident by fire from without, in which case the amount of the explosives conveyed shall not exceed the following :\*

|                                  |     |     |     |     |     | Tons. |
|----------------------------------|-----|-----|-----|-----|-----|-------|
| In any one carriage on a railway | ... | ... | ... | ... | ... | 10    |
| In any one other carriage        | ... | ... | ... | ... | ... | 2     |
| In any one vessel                | ... | ... | ... | ... | ... | 20    |

\*NOTE.—This rule shall, in the case of dynamite conveyed by railway, be read subject to paragraph XII of Rule 13

X.—Nothing in the foregoing rules (except rule I) shall apply to any explosive of the 1st Division of the 6th (Ammunition) Class :

Provided that all due precautions are taken for the prevention of accidents.

12. \* \* \* \* \*

III.—No explosive belonging to class 1 (gunpowder class), class 2 (nitrate-mixture class), class 3 (nitro-compound class), class 4 (chlorate-mixture class) or class 5 (fulminate class), shall be carried, otherwise than by rail, across any railway bridge over which reasonable facilities for the conveyance thereof by rail are afforded by the Railway Administration.

Provided that this prohibition shall not apply in respect of quantities of explosives of class 1 (gunpowder class) or class 3 (nitro-compound class) not exceeding 5 lbs. in weight.

13. The following rules shall be observed with respect to the conveyance of explosives by public railways:

*Conveyance by public railways.*

I.—No person shall send for carriage upon any railway any consignment of an explosive, unless he has given to the officer in charge of the railway station previous notice in writing which, at the option of the Railway Administration, may extend to 48 hours, of his intention to send such consignment, and stating the true name, description, quantity, and mode of packing of the explosive proposed to be conveyed, and his own name and address, and also the name and address of the proposed consignee, and unless he has had an intimation in writing from an authorized officer of the railway that such consignment will be received.

II.—No explosive which a Railway Administration shall, by any notice or regulation for the time being in force, notify that they will not receive, shall be brought, sent, or forwarded to, or upon, any railway of the said Railway Administration.

III.—Consignments of explosives shall be sent to the forwarding station and shall be received by the railway servants only at such times, between sunrise and sunset, as the Railway Administration may appoint ; and every package containing any explosive proposed to be conveyed on any railway shall, immediately on arrival at the station, be unloaded and placed in a safe place under the special direction of the officer in charge of the station.

All gunpowder under despatch or receipt by a Government arsenal, depôt, or factory shall be loaded or unloaded in the railway vans by Government servants employed in such arsenal, depôt, or factory. In each van used by the railway for the transport of gunpowder the packages of gunpowder shall be secured in such a way as to prevent concussion when the train is in motion.

IV.—An explosive shall be removed by the consignee from the receiving station during the twelve hours of daylight after arrival: if this condition is not strictly complied with, the Railway Administration may return the consignment to the consignor at his risk and expense. And such packages shall in the meanwhile be kept as far away from the station buildings as possible, in the wagon they were conveyed in, or, if unloaded, shall be completely covered with tarpaulins or other suitable material, and if necessary, shall be protected by a police guard.

V.—The Railway Administration may refuse to receive any packages which they suspect to contain any explosive packed or sent in contravention of these regulations. And in case any package, which the Railway Administration suspect, shall be upon any railway, the Railway Administration may open, or require to be opened, such package to ascertain the fact, at the risk and expense of the consignor and may return the explosive contained in the package to the consignor at his risk and expense, keeping the packages pending such return in the manner prescribed in the preceding rule.

VI.—Subject to the exception provided for in clause (e), no explosive shall be conveyed by passenger train except of the kinds and in the manner hereinafter specified in this rule:

- (a) Safety-cartridges and percussion-caps and safety-fuses (for blasting), also fog signals for railway use which may be conveyed in ordinary wagons or carriages.
- (b) Explosives of the 3rd (nitro-compound) class which may be carried in the form of cartridges up to the limit of 5 lbs.:

Provided that no detonators are carried in the same compartment.

- (c) Detonators packed according to Rule 9 may be carried to the number of 200:

Provided that in no case the amount of fulminate of mercury in the package or packages containing the detonators exceeds in the aggregate 3 oz. (a certificate to this effect being given by the company, firm, or person tendering the detonators for transport or by its or his agent):

Provided also that no other explosive is carried in the same compartment.

- (d) Sporting gunpowder or non-safety cartridges packed in double cases as before provided, so long as the gunpowder is contained in one-pound tin canisters packed in a stout wooden case with an outer covering of tin or zinc completely spark-proof, or in metal-lined cases of a pattern approved by the Railway Administration. But no outer case shall contain more than 25 lb of gunpowder, and the total consignment of gunpowder or non-safety cartridges by one train shall not exceed 80 lbs.

- (e) Explosives may be carried by mixed trains on any line on which goods trains are not running, subject to the conditions that they are loaded in properly constructed powder vans; that not more than one powder-van containing explosives is forwarded at any one time by a mixed train; that there are not less than three vehicles between the powder-van and either the engine or the passenger coaches; that the powder van is close coupled to the adjoining vehicles; and that directly a powder-van containing explosives arrives at a section on which goods trains are running, it is detached from the mixed train.

VII.—Not more than five carriages containing explosives shall be loaded or unloaded at any railway station, or be conveyed by any one train at any one time; and the quantity of explosive to be contained in any one carriage shall not exceed two-thirds of the normal load, unless the carriages shall be specially built and approved by the Railway Board for the conveyance of explosives. But nothing in this clause shall be held to apply to separate consignments of safety cartridges for small-arms.

VIII.—There shall not be conveyed in the same carriage with any explosive any lucifer or other matches, fuzees, pipelights, acids, naphtha, paraffine, petroleum to which the Indian Petroleum Act, 1899 (VIII of 1899), or any other Act for the time being in force regarding the importation, possession, and transport of petroleum, applies or any other volatile substance liable to give off an inflammable vapour or liable to spontaneous ignition, or to cause or communicate fire or explosion.

IX.—The consignor shall attach to the consignment note a certificate or (provided the original is produced for verification) copy of a certificate signed by an officer authorized by the Local Government in this behalf that the explosive, if it is an explosive of class 3 or 4, is of the standard purity; and further in the case of dynamite, and all nitro-glycerine compounds, that there are no signs of exuded nitro-glycerine or of liquefaction. The consignor shall also certify that the explosive has been packed in accordance with the packing rules in force in England or in British India.

X.—In the case of explosives under classes 3 and 4, the outer packages shall be marked with the date of the manufacture of the explosives. The abovementioned certificate shall contain sufficient information to admit of all packages being easily recognized.

XI.—The certificate referred to in Rule 13 (IX) shall be valid for six months after date, if the examination has been made between the 15th October and 31st March, but any Railway Administration which accepts dynamite and other nitro-glycerine compounds for transport may demand a fresh certificate for these explosives, if presented for conveyance between 1st April and 15th October (both inclusive).

XII.—Packages containing dynamite and other blasting explosives of the 3rd (nitro-compound) class, or explosives of the 4th (chlorate-mixture), 5th (fulminate) classes or of the 1st division of the 7th (firework) class shall be stowed in one layer only and secured so as to prevent movement during transit, and the gross load in any one wagon shall not exceed 3 tons :

Provided that, if the packages of explosive are in rectangular form and are properly secured so as to prevent movement during transit, they may be stowed in any number of layers not exceeding five, and the gross load in any one wagon shall not exceed 5 tons.

XIII.—No explosive of the 5th (fulminate) class, or of the 3rd division of the 6th (ammunition) class, or of the 7th (firework) class shall be carried in the same train with any explosive not of the class and division to which it belongs, unless it be sufficiently separated therefrom to prevent any fire or explosion which may take place in one such explosive being communicated to another.

XIV.—Wagons used for the carriage of explosives shall be examined to see that they are spark-proof, and have been cleaned out before they are loaded. Hair, cloth, hides, or other suitable materials shall be spread on the floor of the wagon and between each layer of packages except when the packages are covered with gunny or felt, or contain safety cartridges for small arms packed in tin-lined service-pattern boxes.

XV.—Wagons containing explosives shall be loaded and unloaded on sidings distant as far as possible from the station buildings.

XVI.—Packages containing explosives other than those referred to in Rule 13 (XII) shall not be stored in more than three layers one above the other. But if the packages are in rectangular form and of uniform size (provided they are double packages, and are so secured as to prevent movement during transit) they may be packed in five layers one above the other. But in the case of safety cartridges, for small arms packed in tin-lined service pattern boxes, there is no restriction. Subject to the provisions of Rule 11 (III), the loading and unloading of explosives when once begun shall be diligently proceeded with until the same is completed.

XVII.—When the train is being marshalled, wagons loaded with explosives may be shunted by a locomotive, if they are separated from the engine by not less than three wagons containing no explosive nor easily inflammable substance. This precaution is not necessary with wagons specially constructed for the carriage of explosives. The speed of these movements shall be restricted to five miles an hour; they shall be superintended by a duly authorized officer, who shall be held responsible for the observance of these orders. Flying shunts are strictly prohibited.

XVIII.—Wagons containing explosives shall be placed at the end of the train away from the locomotive, and shall be close coupled to one another as well as to the adjoining wagons, and shall be preceded and followed by three wagons not loaded with explosives or other traffic of an inflammable nature.

Provided as follows :

- (a) on the Darjeeling-Himalayan Railway, wagons containing explosives and adjoining wagons need not be close coupled to one another; and
- (b) on the Nilgiri Railway only one wagon need intervene between the locomotive and wagons containing explosives.

XIX.—If the wagons employed in the transport of explosives are provided with brakes other than iron brakes, the brakes thereon shall on no account be worked while the wagons are running with a train, nor shall brakes, other than iron brakes, on vehicle immediately adjoining such wagons, be worked while such wagons are so running.

XX.—Wagons shall in every case be locked when loaded with explosives.

XXI.—All operations connected with the transshipment of explosives at junction stations shall take place during daylight.

14. Whoever commits a breach of any of the foregoing rules relating to the mode of conveyance of explosives shall be punishable with a fine which may extend to Rs. 100.

RESOLUTION.—It has been represented that the method of packing sulphuric acid prescribed in rules II (2) (c) and II (4) of Appendix A of Part II of the General Rules of 1906 for working open lines of railway, promulgated with Railway Board's circular No. R.T.  $\frac{88-A}{6}$ , dated the 8th September 1906, results in the tare or weight of the packing being the same as the weight of the acid so that the railway freight on the net quantity of the acid is out of all proportion to the value of the acid.

2. In exercise, therefore, of the powers conferred by the notification of the Government of India in the Department of Commerce and Industry, No. 801, dated the 24th March 1905, read in the preamble above, the Railway Board sanction, under section 47, sub-sections (1) and (4) of the Indian Railways Act, 1890 (IX of 1890), as in force in British India or as locally applied, the adoption, by the administrations of all lines of railway administered by the Government, of the addendum and amendments specified in the annexure hereto in the General Rules for working open lines of railway, which were promulgated with Railway Board's circular No. R. T.  $\frac{88-A}{6}$ , dated the 8th September 1906.

3. The Railway Board also desire that the said addendum and amendments may be brought to the notice of the administrations of the several railways not administered by Government and that the Agents and Managers of those railways may be invited to submit formal applications for the adoption of the said addendum and amendments.

ORDER.—Ordered that this circular, with the accompanying addendum and amendments, be published under a notification in Part I of the *Gazette of India*, as required by section 47, sub-section (3) of the Indian Railways Act, 1890 (IX of 1890), and that a copy thereof be kept open for inspection at

**Rainfall summary for the seven days ending at 8 h. on Thursday, the 25th July 1907, based on the Indian Daily Weather Reports of the period.**

The most important feature in the meteorology of the week was the setting in of the monsoon over the United Provinces and the north and east Punjab. On the 20th a large rise in pressure along the Himalayas brought the trough of low pressure well away from the hills and enabled the Bay monsoon current to pass freely up the Gangetic plain into the Punjab. From that day on to the end of the week rain occurred daily in the United Provinces and the east Punjab, and on the 22nd and 24th extended over the greater part of the latter province, while rainfall was more or less general throughout the week in northeast India and on the Burma coast. The Arabian Sea current was roused into greater activity at the same time, and in conjunction with the Bay current gave rain over Central India; it also gave nearly general rain in the Central Provinces and local rain in Rajputana and Gujarat. In the Peninsula rainfall occurred chiefly in the western districts.

*Burma.*—General rain fell in the coast districts and local rain in the interior. Skies were moderately to thickly clouded, and temperature remained approximately normal.

*Northeast India and Orissa.*—Rain fell in all parts of the division and was moderate to heavy in the north central districts on the 19th and 20th. Skies were moderately to heavily clouded, and temperature was normal except on the 19th and 20th when it was somewhat lower than usual in the north.

*The United Provinces, Central India and the Central Provinces.*—Rainfall was scanty on the 19th but as monsoon winds penetrated into the United Provinces it became more general and from the 21st to the end of the week occurred in all parts of the division. Skies were moderately to heavily clouded and temperature, which was much higher than usual at the commencement of the week, fell rapidly with the extension of rainfall and from the 21st was nearly normal.

*Northwest India.*—Rain fell locally on most days of the week in Gujarat, Rajputana and the east Punjab, and a few falls occurred in other parts of the Punjab. Skies were moderately clouded along the hills and in Rajputana, Gujarat and lower Sind, and were almost clear elsewhere. Temperature was considerably above normal up to the 20th when it commenced falling, and from the 22nd it was normal or in defect, the deficiency being most marked in the extreme north.

*The Peninsula.*—Rainfall was restricted chiefly to the western districts but on the 25th it was nearly general in the Deccan though light in amount. Skies were moderately to heavily clouded, and temperature was approximately normal.

The rainfall of the past week has reduced the percentage of defect in nearly all divisions where a deficiency was shown at the close of the previous week. The figures for the whole monsoon period show that rainfall differs from the normal by less than 20 per cent in Burma and the whole of northeast India and of the Peninsula except in the subdivisions of Darbhanga, Cuttack, Raipur and Bellary; in these divisions and in the rest of the country it is 20 per cent. or more in defect.

The following summarises the chief rainfall amounts of the week, as reported at 8 h. each day:

## Season and Crop Prospects for the week ending Saturday, 20th July 1907.

**Burma.**—Prospects continue favourable in Lower Burma; transplanting has commenced in Toungoo and Thaton, and sowing of wet weather paddy is completed in Tavoy; crop prospects in Shwebo have been much improved by timely rain; rain is wanted for sesamum in Minbu and for sesamum, cotton and paddy in Sagaing; no rain fell during the week in Lower Chindwin where it is badly wanted; prospects are generally good elsewhere. The price of paddy has increased considerably in Minbu and slightly in Kyaukpnyu, Prome, Thaton and Mergui; it has fallen very largely in Henzada; considerably in Rangoon and slightly in Pakokku.

**Eastern Bengal and Assam**—The weather is seasonable. The rainfall was general; it was heavy in Dinajpur, Jalpaiguri, Rangpur and Goalpara, and slight to moderate elsewhere. More rain is wanted in the Chittagong Hill Tracts for *jhum* cultivation. Plucking and manufacture of tea are in progress, prospects are poor in Kamrup and elsewhere fair to good. Ploughing for and transplantation of winter rice and harvesting of early rice and jute are in progress. Slight damage to early rice is reported from parts of Dacca and reaping of the crop is retarded by excessive rain in Rangpur. The prospects of standing crops are generally fair to good. Potatoes are being gathered in the Khasi Hills where the outturn is very good. Prices of common rice:—Manipur 12½; Kohima, Chittagong and Comilla 8½; Dacca, Faridpur and Sibsagar 8; Mymensingh 7½; Sylhet Dhubri and Gauhati 7½; Dibrugarh 7½; Barisal, Rangamati, Dinajpur, Jalpaiguri, Malda, Silchar, Tezpur and Nowgong 7; Tura 6 to 7; Bogia 6½; Pabna 6½; Noakhali, Rajshahi and Shillong 6½; Rangpur 6; and Aijal 5 seers per rupee. Prices have risen in four; fallen in ten; and remained stationary in the remaining districts.

**Bengal.**—Rain was general over the Province, it was heavy in Saran, Champaran, Purnea, Darjeeling, Ranchi and Cooch Behar; fairly moderate in Burdwan, Nadia, Jessore, Darohanga and Hazaribagh; and light in the rest of the Province. More rain is wanted in many districts for transplantation of paddy. Some damage has been done by floods to jute in Midnapore and to autumn crops in Darbhanga. Heavy rain has adversely affected jute in Hooghly, *aman* paddy seedlings and jute in the 24-Parganas, and *aus* paddy in Jessore. Jute has also suffered slightly from the attacks of insects in the 24-Parganas. Locusts made their appearance in Saran, Champaran and Muzaffarpur but did little injury to the crops. Prospects of sugarcane are favourable. In Darbhanga the number of persons gratuitously relieved in the undeclared area is 701 and in the famine area 8,993; the number on relief works is 5,782. Fodder and water are sufficient everywhere. The price of common rice has risen in five and fallen in four districts.

**United Provinces.**—Rain fell in almost all districts but in insufficient quantity; good rain has fallen since the close of the week and has greatly improved prospects. Sowings are in progress and weeding and ploughing of fields continue. Irrigation is where practicable going on. Some damage by locusts is reported from Unao Jaunpur, Ballia and Mirzapur. Agricultural stock is in good condition except in Bardoi. Fodder in places continues dear and scarce, and in parts of Fatehpur the water-supply is deficient. Markets are well stocked but prices continue to rise.

**Punjab.**—Good to moderate rain has fallen in all districts except Sialkot and Mianwali. Prices of food-grains are generally rising in Lahore, Amritsar, Rawalpindi and Lyallpur; wheat is falling in Multan. Ploughings for and sowings of autumn crops are in progress; sugarcane and cotton crops are being weeded in Jullundur and Sialkot; cutting of tobacco is going on in Lahore and Amritsar; cotton sowings continue in Multan. The condition of the standing crops is good to average; the recent rains have benefited the standing crops in Rohtak; more rain is badly wanted in Delhi, Ambala, Sialkot and Rawalpindi. Cotton on irrigated lands has been damaged for want of rain in Delhi; *toka* (an insect) has damaged great millet in Shahpur. The condition of cattle is generally good. Fodder is sufficient. The water-supply is insufficient in parts of Multan.

**North-West Frontier Province.**—Good rain has fallen in Hazara and slight showers in Peshawar. Rain is badly needed everywhere. The standing crops are in good condition but only a small unirrigated area has so far been sown. Locusts appeared in the Kulachi tehsil of Dera Ismail Khan district and caused slight damage to crops. Autumn sowings are in progress. The river Indus is rising; water in the Kot Hafir distributary of the Paharpur canal is flowing 2½ feet deep. The water-supply and fodder are sufficient. Cattle are in good condition. Prices are stationary except of maize which is rising owing to the uncertain autumn prospect.

**Jammu.**—Slight rain at Jammu and Ramnagar. Prices are fluctuating. Prices:—wheat 10 to 20 and maize 14 to 36 seers per rupee. The condition of the standing crops is fair. Fodder is sufficient. Land is being prepared for autumn cultivation.

**Kashmir.**—The weather was bright and warmer, except on one day when it was rainy. Prices are almost stationary.

**Rajputana.**—Showers fell in many places during the week; the maximum fall was 3 inches 50 cents in Jaipur. Sowing operations continue where there has been sufficient rain. Cattle are in good condition except in some places in Mewar and Merwara. Pasturage and fodder are sufficient. Prices are falling in Sirohi; rising in Mewar, Kotah, Jhalawar, Jaipur and Merwara; and are steady elsewhere.

**Central India.**—Rain was general in Bundelkhand, Malwa and Bhopawar and partial in Gwalior, Baghelkhand, Bhopal and parts of Indore. Sowings have started in Baghelkhand, Bundelkhand and parts of Malwa and are in progress in parts of Gwalior, Indore, Bhopal and Bhopawar. Agricultural stock and pasturage are fair to good except in parts of Indore and Bhopawar. Fodder is scarce in parts of Indore and Bhopawar. Prices are high in Baghelkhand and Bhopal; are rising in Gwalior and Malwa; and are steady elsewhere.

**Central Provinces.**—The weather continues to be sultry; light to moderate rain again fell during the week all over the Province, the principal falls (in inches) were:—Yeotmal  $5\frac{1}{2}$ ; Seoni  $4\frac{1}{2}$ ; Narsinghpur, Chhindwara, Balaghat and Amraoti 4; Jubbulpore, Mandla, Chanda and Raipur  $3\frac{1}{2}$ ; in the remaining districts the rainfall ranged from  $2\frac{1}{2}$  inches in Nimar to 22 cents in Bilaspur; the rainfall is generally sufficient in Chhattisgarh, Berar and—except for rice cultivation—in the districts of the Nagpur country, but more rain is required elsewhere. Sowing of autumn crops continues in nine districts and some resowing is also in progress in Jubbulpore, Narsinghpur, Nimar, Nagpur, Akola and the Vindhyan districts where crops have withered for want of rain or germination has proved defective. Sowing of rice is almost completed in Chhattisgarh and germination is reported good in Mandla, Seoni, Betul, Chhindwara, Wardha, Chanda, Nagpur and Bhandara and in the districts of Chhattisgarh and Berar (except Akola). Weeding has commenced in Mandla, Narsinghpur and Berar and transplantation of rice in Chanda and Bhandara. Preparation of land for spring sowings continues in Saugor and Berar. Early sown rice in Jubbulpore has suffered through want of moisture but the rain since received should be beneficial. Locusts appeared in Chhindwara and Wardha and somewhat damaged seedlings in the Harsud tehsil (Nimar); sugarcane is in good condition. Water is sufficient except in parts of Hoshangabad. The supply of fodder is adequate but very dear in Saugor, Nimar, Hoshangabad, Wardha, Nagpur and Yeotmal. Prices of food-grains have remained stationary in nine districts, and fluctuated slightly elsewhere; prices still continue equal to or above the scarcity level in Bhandara, Wardha, Chanda, Balaghat, Mandla, Bilaspur, Durg, Amraoti and Yeotmal.

**Native States.**—Rainfall measured in inches—Bastar, Khairagarh, Raj-Nandgaon and Sarangarh each  $2\frac{1}{2}$ ; Chhuikhudan and Raigarh each 2; Sakti and Udaipur each 1; more rain is required to start thinning operations; in Sarangarh rice has been resown in the lowlands where it was damaged by excessive rain; sowings of autumn crops continue and germination is generally good. The rice crop is withering in Khairagarh for want of sufficient moisture and sowing of *kodon* (millet) is retarded. Fodder and water are ample. *Kodon* (millet) became dearer by 2 seers in Khairagarh.

**Bombay.**—There was good rain during the week in parts of Broach, Surat, the Konkan, East Khandesh, Nasik, Ahmednagar, Belgaum, Kathiawar and Rewa Kantha; moderate in parts of Panch Mahals, West Khandesh, Poona, Dharwar and Mabi Kantha; and slight in parts of Thar and Parkar, Ahmedbad, Kaira, Satara, Bijapur, Baroda, Cutch and Palanpur. Inundation in Sind is not satisfactory. More rain is needed for autumn sowings which are retarded in parts of Sind, Broach, West Khandesh and Rewa Kantha; sowing continues elsewhere and transplantation is progressing in parts of Larkana, the Konkan and Nasik but is retarded in parts of Karachi, Poona and Satara. Seedlings are in good condition except in parts of Karachi, Sukkur, Thar and Parkar, Panch Mahals, Ahmednagar and Cutch where they are suffering for want of sufficient moisture. The fodder-supply is generally adequate. Agricultural stock is in good condition. Drinking water is sufficient and the supply of water for irrigation is improving. The quantity of food-grains purchaseable per rupee is in the Karnatak 27 to 43 per cent; in the Deccan 6 to 29 per cent; and elsewhere 12 to 45 per cent less than the normal. During the week ending the 13th July 25 persons were relieved gratuitously in Belgaum.

**Hyderabad.**—Rainfall—one inch 30 cents. The rainfall was uniformly distributed. Prospects continue good. Autumn and early rice sowings continue. Autumn crops are being weeded; more lands are being prepared for early rice sowings. Prices:—wheat  $7\frac{1}{2}$ ; coarse rice  $7\frac{1}{2}$ ; and *juar*  $14\frac{1}{2}$  seers per rupee.

**Mysore.**—Rain generally good throughout the Province. Prices of food-grains are steady. The standing crops are in good condition but more rain is needed in parts of the Tumkur, Mysore, Hassan and Kadur districts. The prospects of the season are good except in parts of Hassan. Cattle are healthy. Water and fodder are available.

**Coorg.**—Rainfall 12 inches 91 cents. Transplanting of rice continues. Prices of food-grains are normal. Water and fodder are sufficient.

**Madras.**—The rainfall was very heavy in South Canara and Malabar ; good in Chingleput, Ganjam, Kistna, Guntur, North Arcot, Madras, the Nilgiris, Vizagapatam, Godavari, Bellary and Cuddapah ; none in Tinnevely ; and light to fair elsewhere. Irrigation supplies are sufficient except in parts of Ganjam, the Deccan, Nellore, Chingleput, North Arcot, Salem, Madura and Tinnevely. Ploughing, manuring, sowing, weeding and transplanting are in progress. The standing crops are generally fair but gingelly is bad in parts of Godavari and Kistna, and crops in parts of Madura and Tinnevely require more rain. Harvests are proceeding except in Vizagapatam, Kistna, Guntur, Kurnool, Bellary, Nellore, Tinnevely, Malabar and South Canara with outturn poor to normal. Pasture is sufficient except in parts of Vizagapatam, Bellary, Nellore, Madura and Tinnevely. Fodder is procurable. The condition of cattle is generally good. The price of rice is stationary in fifteen districts ; has fallen in four ; and has very slightly risen in four. The prices of millets have fluctuated as follows:—*Ragi* is stationary in eleven districts ; has fallen in seven ; and has slightly risen in three. *Cholum* is stationary in six districts ; has fallen in five ; and has slightly risen in three. *Cumbu* is stationary in ten districts ; has fallen in two and has slightly risen in three.

**REVENUE AND FINANCIAL SECRETARY TO THE CHIEF COMMISSIONER, NORTH-WEST FRONTIER PROVINCE.**

**NOTIFICATIONS.**

Dated Peshawar, the 19th July 1907.

**No. 3320.**—The Chief Commissioner, North-West Frontier Province, is pleased to notify the following rules which have been made under the provisions of clause (k) to subsection (1) of section 184 of the Punjab Municipal Act, XX of 1891, as amended by section 4 of Punjab Act 1 of 1905, for the management and regulation of the Provident Funds

established by the undermentioned Municipal Committees in the North-West Frontier Province under sub-section 3 to section 34 of the said Act :—

Abbottabad.  
Baffa.  
Nawanshahr.  
Haripur.  
Peshawar.  
Kohat.  
Edwardesabad.  
Dera Ismail Khan.  
Kulachi.

These rules will come into force with effect from 1st October, 1907.

### PROVIDENT FUND RULES.

1. In the following rules—

- (1) "Salary" means monthly salary, and does not include travelling or personal allowances.
- (2) "Servant" includes every non-pensionable employé holding a substantive office under a Municipal Committee.
- (3) "Depositor" means a servant on whose behalf a deposit is made under these rules.
- (4) "Interest" means the interest which is paid on a deposit at a Government Savings Bank under the rules in force for such institution.

2. Every servant, appointed or promoted by the Committee on or after the date from which these rules come into effect in the municipality, to an office of which the salary is not less than Rs 10 shall be required to subscribe at the rate of 6½ per cent. or one anna in the rupee, on his salary, to a Provident Fund, of which an account will be opened at the Post Office Savings Bank. A servant, appointed or promoted previous to the coming into effect of these rules to an office of which the salary is not less than Rs 10, may be permitted by the Committee to subscribe to the fund. The deduction shall be made by the Committee upon every salary bill presented, and shall be credited at once to the fund. In making this deduction fractions of a rupee of salary should be omitted.

3. The Committee shall make a contribution to the deposit account of each depositor, equal to one-half of the amount of the deduction made from his salary under the preceding rule. Such contribution shall be credited to the fund, month by month, in favour of such servant, together with the deduction from his salary. The contribution will be charged in the municipal accounts to "14, Miscellaneous," sub-head "7, Provident Fund."

4. The sums credited monthly under Rules 2 and 3 to the Provident Fund Ledger maintained by the Municipal Committee, shall be paid duly into the Post Office Savings Bank. Such payments should, whenever possible, be made into the Bank between the 1st and 4th of each month, in order that interest may accrue.

5. The deposits and contributions, with interest thereon, at the credit of any servant, may be withdrawn—

- (1) on the decease of the depositor, when the amount shall be paid to his legal heirs;
- (2) on his ceasing to be a servant of the Committee, either by resignation or by transfer to service under some other Local Fund or to Government service, when the amount shall be paid to the servant himself.

6. If a servant is dismissed, the Committee may, with the sanction of the Revenue Commissioner, withhold all or any part of the contribution allotted to him with the interest accrued thereon, and pay to the servant only the balance at his credit without such contribution and the interest thereon. In the case of there being any outstandings against a servant who may have resigned or been dismissed, the Committee may deduct the amount of such outstandings from his deposits, and pay him the balance only after such deduction.

7. Any contribution and interest thereon withheld from a dismissed servant shall belong to the Municipality.

8. A separate account, in Form A appended, shall be kept and written up in the office of the Municipal Committee on account of every depositor, and a copy of this account, which shall show every payment credited, with the interest thereon, shall be furnished to every depositor, as soon as possible after the close of the financial year to which the account relates.

9. Amounts credited or debited to the Provident Fund shall, on the same day, be posted into the Provident Fund Ledger, in Form B appended, in full detail. The figures for column 8 of the ledger must be calculated monthly, and the net balance of each account entered in columns 5 and 9; but the figures in these columns can be proved only once a year with the Savings Bank Pass-book. Great care should, therefore, be taken to make the monthly calculation according to the rule in force in the Post Office. The Provident Fund Ledger shall have separate pages for each month's transactions.

10. No voluntary deposits from servants will be credited to the Provident Fund.

11. Servants are not eligible to subscribe to the Provident Fund while absent on leave other than privilege leave.

12. On a depositor leaving the service, his account shall be closed, and unless the amount at his credit be withdrawn within a certain period, *viz.*,—

for balances of Rs 10 and under, one year; for balances over Rs 10, three years;

it shall be written off as a dead account, and repaid only under the orders of the Revenue Commissioner, North-West Frontier Province.

13. When accounts become "dead," they must be removed from the Provident Fund Ledger, and be credited in the cash-book as a miscellaneous receipt, the money being drawn out of the Savings Bank. On an amount being thus written off, it should be entered in a "dead account" register, in which subsequent repayment shall be noted in order to avoid a double payment.

**No. 3321.**—The Chief Commissioner, North-West Frontier Province, is pleased to notify the following rules which have been made under the provisions of clause (k) to sub-section (1) of section 184 of the Punjab Municipal Act, XX of 1891, as amended by section 4 of Punjab Act I of 1905, for the management and regulation of the Provident Fund established by the Committee of the Tank Notified area in the Dera Ismail Khan district. These rules will come into force with effect from 1st October 1907.

## PROVIDENT FUND RULES.

## 1. In the following rules—

- (1) "Salary" means monthly salary, and does not include travelling or personal allowances.
- (2) "Servant" includes every non-pensionable employé holding a substantive office under the Committee.
- (3) "Depositor" means a servant on whose behalf a deposit is made under these rules.
- (4) "Interest" means the interest which is paid on a deposit at a Government Savings Bank under the rules in force for such institutions.

2. Every servant, appointed or promoted by the Committee on or after the date from which these rules come into effect in the notified area to an office of which the salary is not less than Rs 10, shall be required to subscribe at the rate of  $6\frac{1}{4}$  per cent. or one anna in the rupee, on his salary, to a Provident Fund, of which an account will be opened at the Post Office Savings Bank. A servant, appointed or promoted previous to the coming into effect of these rules to an office of which the salary is not less than Rs 10, may be permitted by the Committee to subscribe to the fund. The deduction shall be made by the committee upon every salary bill presented, and shall be credited at once to the Fund. In making this deduction fractions of a rupee of salary should be omitted.

3. The Committee shall make a contribution to the deposit account of each depositor, equal to one-half of the amount of the deduction made from his salary under the preceding rule. Such contribution shall be credited to the fund, month by month, in favour of such servant, together with the deduction from his salary. The contribution will be charged in the accounts to head "16, Miscellaneous."

4. The sums credited monthly under Rules 2 and 3 to the Provident Fund Ledger maintained by the Committee, shall be paid duly into the Post Office Savings Bank. Such payments should, whenever possible, be made into the Bank between the 1st and 4th of each month, in order that interest may accrue.

5. The deposits and contributions, with interest thereon, at the credit of any servant, may be withdrawn—

- (1) on the decease of the depositor, when the amount shall be paid to his legal heirs;
- (2) on his ceasing to be a servant of the Committee, either by resignation or by transfer to service under some other Local Fund, or to Government service, when the amount shall be paid to the servant himself.

6. If a servant is dismissed, the Committee may, with the sanction of the Revenue Commissioner, withhold all or any part of the contribution allotted to him with the interest accrued thereon, and pay to the servant only the balance at his credit without such contribution and the interest thereon. In the case of there being any outstandings against a servant who may have resigned or been dismissed, the Committee may deduct the amount of such outstandings from his deposits, and pay him the balance only after such deduction.

7. Any contribution and interest thereon withheld from a dismissed servant shall belong to the notified area.

8. A separate account, in Form A appended, shall be kept and written up in the office of the Committee on account of every depositor, and a copy of this account, which shall show every payment credited, with the interest thereon shall be furnished to every depositor, as soon as possible after the close of the financial year to which the account relates.

9. Amounts credited or debited to the Provident Fund shall, on the same day, be posted into the Provident Fund Ledger, in Form B appended, in full detail. The figures for column 8 of the ledger must be calculated monthly, and the net balance of each account entered in columns 5 and 9; but the figures in these columns can be proved only once a year with the Savings Bank Pass-book. Great care should, therefore, be taken to make the monthly calculation according to the rule in force in the Post Office. The Provident Fund Ledger shall have separate pages for each month's transactions.

10. No voluntary deposits from servants will be credited to the Provident Fund.

11. Servants are not eligible to subscribe to the Provident Fund while absent on leave other than privilege leave.

12. On a depositor leaving the service, his account shall be closed, and unless the amount at his credit be withdrawn within a certain period, *vis.*—

for balances of Rs 10 and under, one year; for balances over Rs 10, three years;

it shall be written off as a dead account, and repaid only under the orders of the Revenue Commissioner, North-West Frontier Province.

13. When accounts become "dead," they must be removed from the Provident Fund Ledger, and be credited in the cash-book as a miscellaneous receipt, the money being drawn out of the Savings Bank. On an amount being thus written off, it should be entered in a "dead account" register, in which subsequent repayment shall be noted in order to avoid a double payment.

## Rules under the Indian Stamp Act, 1899.

In the case of instruments written on parchment, the labels shall be further secured by means of metallic eyelets.

Mode of affixing and impressing labels.

(2) On affixing any label or labels under this rule, the proper officer shall, where the duty amounts to rupees five or upwards, write on the face of the label or labels his initials, and, where the duty amounts to rupees twenty or upwards, shall also attach his usual signature to the instrument immediately under the label or labels.

(3) Any principal assistant of the proper officer, if empowered by the Agent to the Governor General in Rajputana in this behalf, may discharge the functions of the proper officer under sub-section (2) of this rule.

11. (1) Instruments (other than instruments which, under section 11 of the Act, may be stamped with adhesive stamps) executed out of British India or the areas to which these rules apply and requiring to be stamped after their receipt in the said areas shall be stamped with impressed labels.

Certain instruments to be stamped with impressed labels.

When any instrument of transfer of shares in a Company or Association is written on a sheet of paper on which the necessary stamp is engraved or embossed and the value of the stamp so engraved or embossed is subsequently, in consequence of a rise in the market value of such shares, found to fall short of the amount of duty chargeable under Article No. 62 (a) of Schedule I to the Act, one or more adhesive stamps bearing the words "Share Transfer," as hereinafter prescribed, may be used to make up the amount required.

Provided that if application is made within three months of the execution of the instrument, and the Collector is satisfied that the improper description of stamp was used solely because of the difficulty or inconvenience of procuring one of proper description, he may remit the further payment of duty prescribed in this rule.

17. The Collector may require any person claiming a refund or renewal under Chapter V of the Act, or his duly authorized agent, to make an oral deposition on oath or affirmation, or to file an affidavit, setting forth the circumstances under which the claim has arisen and may also, if he thinks fit, call for the evidence of witnesses in support of the statement set forth in any such deposition or affidavit as aforesaid.

When an application is made for the payment, under Chapter V of the Act, of an allowance in respect of a spoiled or misused stamp, or on the renewal of a debenture, and an order is passed by the Collector sanctioning the allowance or calling for further evidence in support of the application, then if the amount of the allowance or the stamp given in lieu thereof is not taken, or if the further evidence required is not furnished, as the case may be, by the applicant within one year of the date of such order as aforesaid, the application shall be struck off and the spoiled or misused stamp (if any) sent to the Superintendent of Stamps, Bombay, for destruction.

**Rainfall summary for the seven days ending at 8 h. on Thursday, the 1st August 1907, based on the Indian Daily Weather Reports of the period.**

The trough of low pressure was either in its normal position or south of it, and both branches of the monsoon were fairly active throughout the week; rain accordingly fell over the whole of India excluding the Frontier Province and Sind. The Arabian Sea current gave abundant rain in Gujarat, southeast Rajputana, Central India and the Central Provinces, and in conjunction with the Bay current a moderate amount of rain in the United Provinces. In the rest of the field of the Bay monsoon precipitation was much lighter than usual except in lower Burma, but at the close of the week a depression was forming off the Orissa coast and had given general rain in its vicinity.

*Burma.*—Rainfall was nearly general on the coast and local in the interior. Skies were moderately clouded and temperature was normal.

*Northeast India and Orissa.*—Very light rainfall occurred in all parts of the division during the week and was most widespread on the 28th. Skies were moderately to heavily clouded, and temperature was very nearly normal.

*The United Provinces, Central India and the Central Provinces.*—Nearly general rainfall occurred on three days in the United Provinces, on four days in Central India and almost daily in the Central Provinces. Skies were thickly clouded except in parts of the United Provinces where cloud was light to moderate. Temperature was slightly low in the south of the Central Provinces and approximately normal elsewhere.

*Northwest India.*—Weather was dry in Baluchistan, the Frontier Province, the south-west Punjab and Sind with the exception of a few scattered falls, but in the rest of the division rainfall occurred, being nearly general and moderately heavy in Gujarat and the southeast of Rajputana from the 28th to the end of the week. Skies were moderately to thickly clouded in the hills and submontane districts of the Punjab, in Rajputana, Gujarat and lower Sind. Temperature was considerably lower than usual in the Frontier Province and the Punjab on the 26th July, but was above normal almost throughout the week in Sind. It was normal during the period of wet weather in other parts of the division.

*The Peninsula.*—There was nearly general rain on the west coast and local rain in the Deccan, while a few falls occurred elsewhere. Skies were heavily overcast and temperature was normal except during the first three days of the week when it was lower than usual in parts of the Deccan.

The rainfall of the week has considerably reduced the defect in the seasonal rainfall in Gujarat, south-east Rajputana, Central India and the south of the United Provinces. The rainfall for the whole period from the 3rd May to the 1st August is still in defect in northern India to the west of Bihar and Chota Nagpur, but it differs by less than 20 per cent. of the normal in Burma and practically the whole of northeast India and the Peninsula. The deficiency amounts to about 80 per cent. in the Indo-Gangetic Plain (West).

The following summarises the chief rainfall amounts of the week, as reported at 8 h. each day:

## Season and Crop Prospects for the week ending Saturday, 27th July 1907.

**Burma.**—Agricultural operations in Lower Burma are progressing satisfactorily and prospects are good. No rain fell during the week in Shwebo and only a minute amount in Sagaing; about one-fourth inch in Minbu and Myingyan; and about one-third inch in Mandalay and Lower Chindwin. Sesamum has failed in parts of Minbu; some hillside paddy and wet weather paddy have failed in the Thabeitkyin township of the Ruby Min district for want of rain. The standing crops in the Thabeitkyin township of the Ruby Min district are in want of rain and the standing crops in the Kanbalu sub-division of Shwebo have partially failed for want of it. Rain is badly wanted in Sagaing, Lower Chindwin, Shwebo, Minbu, Pakokku and Myingyan; elsewhere the crops are in good condition. The price of paddy has risen largely in Kyaukpadaung and considerably in Henzada, while it has fallen considerably in Mandalay and slightly in Toungoo and Myingyan; elsewhere it is stationary.

**Eastern Bengal and Assam.**—The weather is seasonable. Slight to moderate rain has fallen in all districts. More rain is needed in the Chittagong Hill Tracts. Plucking and manufacture of tea are in progress and prospects are generally fair to good. Ploughing for and transplantation of winter rice and harvesting of early rice and jute are in progress. The prospects of the standing crops are generally good. Gathering of potatoes in the Khasi Hills is still in progress and the outturn is very good. Prices of common rice: Manipur 12½; Kohima and Chittagong 9; Comilla 8½; Dacca and Pabna 8½; Mymensingh, Rangamati, Silehar and Sibsagar 9; Faridpur 6½ to 8; Noakhali, Dhubri and Gauhati 7; Dibrugarh 7½; Dinajpur 7½; Barisal, Jalpaiguri, Malda, Sylhet, Tezpur and Nowgong 7; Tura 6 to 7; Rampur Balia 6½; Shillong 6½; Rangpur 6; and Aijal 5 seers per rupee. Prices have risen in four; fallen in eight; and remained stationary in the remaining districts.

**Bengal.**—The rainfall during the week was general though light; in Burdwan, Saran, Champaran, Darjeeling and Sumbulpur it was moderate; more rain is wanted in Burdwan, Birbhum, Murshidabad, Gaya, Shahabad, Monghyr, Balasore and Angul. Some damage has been done by floods and excessive rain in parts of Burdwan, the 24 Parganas, Nadia, Muzaffarpur, Darbhanga and Purnea; damage to jute by insects is also reported from Burdwan, the 24 Parganas and Nadia. Sugarcane is doing well. Transplantation of paddy is in progress. Prospects on the whole are satisfactory at present. In Darbhanga the number of persons gratuitously relieved in the undeclared area is 60 in the famine area 8,274; the number on relief-works is 4,147. Fodder and water are generally sufficient. The price of common rice has risen in two and fallen in six districts.

**United Provinces.**—Good rain has fallen throughout the Provinces and prospects have much improved. Sowings are in progress. Some damage by locusts is reported from Aligarh and in Benares slight injury has been caused by insects to sugarcane. Fodder continues dear and scarce in parts. Supplies are adequate and prices have fallen in nineteen districts.

**Punjab.**—(Report not received).

**North-West Frontier Province.**—Good rain from one to three inches has fallen in Hazara, Peshawar and parts of the Dera Ismail Khan districts. Rain is badly wanted in Bannu and Kohat. The standing crops are in fair condition. Autumn sowings are in progress but are retarded by want of rain in places. The river Indus is rising. Water in newly opened Paharpur canal is flowing about 3 feet deep and irrigation has commenced. The water-supply and fodder are sufficient. Cattle are in good condition. Prices of wheat are rising slightly; those of other crops are stationary. Prices—wheat 1 to 20½; maize 22½ to 31½; gram 15½ to 22; and *bajra* 18½ to 23 seers per rupee.

**Jammu.**—Slight rain. Prices are fluctuating. Prices—wheat 10 to 20 and maize 15 to 33 seers per rupee. The condition of the standing crops is fair. Fodder is sufficient except in the Kishtwar and Basohli tehsils where it is scanty. Land is being prepared for autumn cultivation.

**Kashmir.**—The weather was generally bright with rain at intervals. Prices are almost stationary. The standing crops are in good condition.

**Rajputana.**—There was general rainfall throughout Rajputana and Ajmer-Merwa during the week; the chief falls were 2 inches 85 cents at Nagore in Marwar, 1 inch

75 cents at Sirohi, 1 inch 73 cents in the Mewar Hill Tracts, 3 inches 36 cents in Dungarpur, 4 inches 41 cents in Partabgarh, 2 inches 64 cents in Shahpura, 2 inches 94 cents in Karauli, 2 inches 89 cents in Dholpur, 1 inch 86 cents in Kotah, and 2 inches 50 cents in Jhalrapatan. Sowing operations continue. Cattle are generally in good condition except in parts of Mewar. Fodder is scarce in the Mewar Hill Tracts and the Beawar tehsil in Merwara; elsewhere it is sufficient. Prices are rising in five States; elsewhere they are steady or slightly falling.

**Central India.**—Rain was partial in Gwalior and Indore and general in all other Agencies. Sowing of autumn crops has started in Baghelkhand, Indore and Malwa and is in progress elsewhere. Agricultural stock and pasturage are fair to good except in parts of Indore and Bhopawar where pasturage is insufficient. Prices are rising in Gwalior; falling slightly in Malwa; are high in Bhopal and Baghelkhand; and are steady elsewhere.

**Central Provinces.**—Light to moderately heavy rain fell during the week throughout the Provinces; Chanda received  $7\frac{1}{2}$ , Hoshangabad 6, Balaghat  $5\frac{1}{2}$ , Yeotmal  $4\frac{1}{2}$ , Nagpur  $4\frac{1}{2}$ , Nimar  $4\frac{1}{2}$ , Jabulpore, Wardha and Akola each 4 inches; in the remaining districts the rainfall ranged from  $1\frac{1}{2}$  inches in Amraoti to  $3\frac{1}{2}$  inches in Raipur and Buldana. The agricultural situation is greatly improved in all districts by the recent rain, especially in Jabulpore, Nimar and the Vindhyan districts where deficient rainfall caused serious anxiety. Scanty rainfall in Jabulpore up to middle of July retarded sowings generally; more rain is required for sowing of rice in Damoh, for thinning operations in Drug and Bilaspur, and for transplantation of rice in Seoni. Sowing of autumn crops still continues in some northern districts; resowing of crops which withered for want of rain in these districts is in progress; transplantation of rice continues in the Nagpur country and weeding has begun in Chhindwara, Nagpur, Akola and Yeotmal. Germination is reported good everywhere and prospects are now generally favourable. Locusts appeared in Nimar and Nagpur but did no damage. Fodder and water are generally adequate but fodder is very scarce in the Harsud tehsil (Nimar) and many of the cattle there are in poor condition. Prices of food-grains remained stationary in eleven districts and fluctuated slightly elsewhere, exhibiting a tendency to fall; prices still continue equal to or above the scarcity level in the Mandla, Wardha, Chanda, Bhandara, Drug, Bilaspur and Yeotmal districts.

**Native States.**—Udaipur had  $5\frac{1}{2}$  inches of rain, Raj-Nandgaon  $4\frac{1}{2}$ , Kawardha  $3\frac{1}{2}$ , Sarangarh  $3\frac{1}{2}$ , Sakti and Kanker each 2, Rtgirah  $1\frac{1}{2}$  and Chhuikhadan and Khairagarh each 90 cents. More rain is required for thinning operations. Sowing of autumn crops is still in progress. Fodder and water are sufficient. Rice became dearer by 2 seers in Sarangarh.

**Bombay.**—There was good and beneficial rain during the week throughout the Presidency except in Bijapur where it was slight but useful. In Sind the rainfall was slight and inundation is not satisfactory though the river has risen slightly. Autumn sowings generally continue and transplantation is progressing in parts of Sukkur, Ahmedabad, the Konkan, Nasik, Ahmednagar, Poona and Satara. Seedlings are in good condition except in parts of Karachi, Larkana and Thar and Parkar, where they are suffering for want of sufficient moisture. The fodder-supply is adequate except in parts of Thar and Parkar. Agricultural stock is in good condition. Drinking water is sufficient and the supply of water for irrigation is improving. The quantity of food-grains purchaseable per rupee is in the Karnatak 25 to 43 per cent; in the Deccan 5 to 29 per cent; and elsewhere 14 to 37 per cent less than the normal. During week ending the 20th July 25 persons were relieved gratuitously in Belgaum.

**Hyderabad.**—Rainfall 1 inch 63 cents. The rainfall was uniformly distributed and prospects are good. Autumn sowings are in progress. The standing crops are good and are being weeded. Early rice sowings continue. Prices:—wheat  $7\frac{1}{4}$ ; coarse rice  $7\frac{1}{4}$ ; and *juar* 16 seers per rupee.

**Mysore.**—Good rain in Kadur, Hassan and Shimoga, and slight rain elsewhere. Prices of food-grains are generally steady. The standing crops are in good condition but more rain is needed in Kolar, Tumkur and Mysore. The prospects of the season are generally good. Cattle are healthy. Water and fodder are available.

**Coorg.**—Rainfall 14 inches 54 cents. Transplanting of rice continues. Prices of food-grains are normal. Water and fodder are sufficient.

**Madras.**—The rainfall was very heavy in South Canara, Malabar and the Nilgiris; good in Vizagapatam, Godavari, Ganjam, Kistna, Kurnool, Nellore, Chingleput; none in Trichinopoly and Tanjore; and light to fair elsewhere. Irrigation supplies are sufficient, except in parts of Ganjam, the Deccan, the Carnatic, North Arcot, Salem, Madura and Tinnevely. Ploughing, manuring, sowing, weeding and transplanting are in progress. The standing crops are generally fair but some in parts of Tinnevely require more rain. Harvests are proceeding except in Kistna, Guntur, Kurnool, Bellary, Tanjore, Tinnevely, Malabar and South Canara with outturn poor to normal. Pasture is sufficient except in parts of Vizagapatam, Bellary, Nellore, Madura and Tinnevely. Fodder is procurable. The condition of cattle is generally good. The price of rice is stationary in thirteen districts; has fallen in two; and has slightly risen in eight. The prices of millets have fluctuated as follows:—*Ragi* is stationary in nine districts; has fallen in eight; and has

slightly risen in four. *Cholum* is stationary in five districts; has fallen in six; and has slightly risen in three. *Cumbu* is stationary in five districts; has fallen in four; and has slightly risen in six.

**No. 42.**—Under the provisions of paragraph 1 of the Resident's Notification No. 675, dated the 11th February 1904, the Station Staff Officer, Bangalore, for the time being, is appointed a Municipal Commissioner for the Civil and Military Station of Bangalore, with effect from the date of this Notification.

The Resident's Notification No. 2626, dated 30th May 1904, will be regarded as cancelled.

**No. 43.**—In exercise of the powers conferred by rule 1 of the rules for the destruction or other disposal of records, &c., published under Notification No. 1441-I.A. of the Government of India in the Foreign Department, dated the 26th March 1900, and with the previous sanction of the Governor-General in Council, the Hon'ble the Resident in Mysore is pleased to make the following rules to regulate the disposal, by destruction or otherwise of the records, books, registers and papers in the custody of the Criminal Courts in the Civil and Military Station of Bangalore :—

1. An index in the form prescribed in A of the appendix will be put up with the record of every case on its first institution in each Court, and each paper, as it is filed with the record, will be entered in such index.

2. Every record shall, after its completion and immediately before it is deposited in the record-room, be divided into parts as shown in the table given in B of the appendix, and to facilitate this division, each paper will, as soon as it is filed with the record, be numbered and marked off in the index as pertaining to one or another of such parts.

3. The parts of records described in the table given in C of the appendix will be retained for the periods respectively specified against them from the date of their completion, provided that in any case the presiding judge or magistrate may, for reasons to be recorded in writing, direct that any of the papers in any one part be transferred to any other part for which a longer period of retention is prescribed ; in which case the fact will be noted in the index, and the papers dealt with as if they had belonged from the commencement to the part to which they were so transferred.

4. The Court registers, books and papers, described in the table given in D of the appendix, will be retained for the periods respectively specified against them, reckoning from their respective dates or from the dates at which they close.

Provided that the District Magistrate may, in his discretion, direct the retention, for a longer period or permanently, of papers which he may consider likely to be useful in the future, as containing the results of enquiries, or other information, or the opinions of experienced officers in matters connected with the general administration of justice, and provided also that no Criminal Court subordinate to the magistrate of the district, shall cause any papers to be destroyed under the next succeeding rule without having first obtained from such magistrate of the district, permission in writing to do so.

(a) Where any document, of which the destruction is ordered by these rules, is, before it has been destroyed, made evidence in any other proceeding, the rule regulating its destruction will be the rule applicable to evidence filed in such proceeding, where the period prescribed by such last mentioned rule is in excess of the period prescribed by the rule which originally governed its destruction.

5. All records, books and papers, described in the tables given in C and D of the appendix, must be destroyed without fail at the expiration of the periods respectively indicated against them.

6. Records, books and papers to be destroyed under rule 5 are to be burnt in the presence of the record-keeper.

7. To enable parties, who have filed documents in court to withdraw the same before the periods appointed for their destruction, a notice will be published in the Gazette of India in January of each year, stating that all documents filed in the magisterial cases (to be therein enumerated) will, unless previously reclaimed, be destroyed at the expiration of the period indicated in the notice ; and the following note will also be entered at the foot of every copy of an order granted to any of the parties to the proceeding in which such order was made, or to the pleaders or authorized agents of such parties :—

GOVERNMENT OF INDIA.  
DEPARTMENT OF REVENUE AND AGRICULTURE.

**Rainfall summary for the seven days ending at 8 h. on Thursday,  
the 8th August 1907, based on the Indian Daily Weather Reports  
of the period.**

The depression noted in last week's summary proved to be very shallow and only affected the weather in Orissa and the adjacent districts. Both currents were fairly strong throughout the week and as the trough of low pressure was generally in its normal position or south of it the monsoon extended over the whole of northern India and rainfall was abundant in the United Provinces, the Punjab, Rajputana, Gujarat, Central India and the Central Provinces.

*Burma.*—Rainfall was general on the coast and local in the interior. Skies were moderately to heavily clouded and temperature was nearly normal, except on the 5th when it was lower than usual in the extreme north.

*Northeast India and Orissa.*—Rain fell in all parts of the division and was most general on the 2nd and 3rd. Cloud diminished and was only light to moderate on the 6th and 7th in Eastern Bengal and Assam and in Bihar, but during the rest of the week it was moderate to heavy everywhere. Temperature approximated closely to the normal.

*The United Provinces, Central India and the Central Provinces.*—Rainfall occurred throughout the division and was more or less general on every day of the week except on the 5th and 8th when it decreased considerably, and on the latter date was confined chiefly to the Central Provinces. Skies were heavily clouded everywhere except on the 3rd, 5th, 7th and 8th, when in the United Provinces cloud was only light to moderate. Temperature was low on the 2nd and 3rd in parts of the United Provinces and at the close of the week in the south of the Central Provinces but was nearly normal on the remaining days of the week.

*Northwest India.*—More than the usual amount of rain fell in Gujarat, Rajputana, the Punjab and Kashmir and was most widespread on the 3rd when it also occurred in the North-West Frontier Province. Cloud was moderate to heavy in lower Sind, Gujarat, Rajputana and the east Punjab and light to moderate elsewhere. Weather was warmer than usual in Sind throughout the week, and cooler in parts of the Punjab from the 3rd to the 5th, but elsewhere temperature was approximately normal.

*The Peninsula.*—Rainfall was nearly general on the west coast and local in the interior during the first four days of the week but comparatively little rain fell from the 6th to the 8th except in the southwestern districts. Skies were moderately to heavily clouded and temperature differed by only small amounts from the normal.

The rainfall of the week was above the average over by far the greater part of the country, the only areas in which it was 20 per cent. or more in defect being in the Konkan, Sind and Baluchistan and in the subdivisions of Dinajpur, Burdwan, Darbhanga, Bellary and Madura. For the whole monsoon period up to date rainfall is still 20 per cent. or more below normal in the United Provinces, the north of the Central Provinces, the east of Central India and North-West India with the exception of west Gujarat, the largest percentage of defect now being 65 which occurs in Baluchistan and the subdivision of Lahore. The subdivisions of Darbhanga, Bahraich, Ludhiana and Cawnpore have received only about half of their usual rainfall.

The following summarises the chief rainfall amounts of the week, as reported at 8 h. each day:

## GOVERNMENT OF INDIA.

## DEPARTMENT OF REVENUE AND AGRICULTURE.

The following special telegraphic reports on agricultural prospects to end of July are published for general information :

*Madras.*—Rainfall to 27th July above normal in fifteen districts ; approximately normal in two districts and below normal in six districts, *viz.*, Vizagapatam, Chingleput, Madras, South Arcot, Tanjore and South Canara. The deficiency is nowhere serious. Cultivation figures show a deficiency as compared with the five year average under dry first crop in the Deccan, the Carnatic, North Arcot, Coimbatore, Trichinopoly, Tanjore, Malabar, South Canara and the Nilgiris ; and under wet first crop in the Carnatic, the Nilgiris, Godavari, Kistna and the Deccan, except Cuddapah. Prices of staples are above warning rates everywhere, but below scarcity rates except in nine districts in the case of second sort rice, eight districts in the case of *ragi*, one district in the case of *cholam*, and three districts in the case of *cumbu*. High prices nowhere indicate distress ; prices are almost level everywhere. The cause of the high prices is probably due to pressure ; elsewhere no reason to suppose that grain stocks are depleted. General prospects are fair to good.

*Bombay.*—Good rain fell throughout the Presidency Proper during the latter half of July which was more than sufficient to make up for the deficiency of the previous month and half. Agricultural prospects will be very good provided the later rains are favourable. In north Gujarat rice seedlings probably withered before middle of July except where irrigated from wells, but all other early crops are good. The principal feature of the season is the well distributed rain so far in the precarious tracts of East Deccan and the Karnatak, which are generally dependent on the later rain. The recent rain was general in West Deccan also, where prospects have improved. Prospects in Sind are not quite satisfactory on account of low inundation and deficient rain in unirrigable areas, but the river is slowly rising and the situation may improve. Stocks of food grains are generally sufficient but are low in many places owing to a succession of lean years and last season's harvest being only moderately good. Prices are generally above normal ; the quantity of food grains purchasable being 2 to 37 per cent. less for *juar* and *bajra* and 12 to 35 per cent. less for rice. In Sind the high prices are due to low inundation ; in the Presidency to low stocks, restricted imports of Burma rice, increased cost of cultivation due to scanty labour supply, extended cultivation of cotton, and diminution of area under food crops. There is a great demand for labour and wages have risen considerably.

*Bengal.*—General agricultural situation up to end of July was favourable on the whole. The rainfall though unevenly distributed has, taking the Province as a whole, been about normal ; no such deficiency anywhere as to cause anxiety. Slight damage by floods in a few small areas has been reported this week. Stocks of food grains are below normal and in parts very low, but sufficient to last till next harvests, except, perhaps, in one or two small areas which are being watched. Prices of food grains are abnormally high and due principally to short harvests, large exports to Eastern Bengal and Assam, very high prices paid for jute last year and consequent increase in purchasing power and to the effect of high prices in other parts of India.

*United Provinces.*—Rain was in great defect up till the week ending the 26th July, but since then the rainfall has been general and it has fallen in quantities at least sufficient for the present everywhere, except in portions of Meerut and Bulandshahr and in small portions of the Jalaun and Banda districts. Sugar-cane has escaped serious general injury and crops sown with former rain have generally survived though in hill districts a good deal of *mandua* and some rice has failed to germinate or has dried up and will be replaced by other crops. Field work is now proceeding at high pressure and it is impossible to estimate quantitatively the reduction in the early autumn

crops, but the area under these crops will be relatively small outside the canal districts and the two eastern divisions of Gorakhpur and Benares. Past experience suggests that tall millets and pulses will be substituted very generally and that though the total area sown will be below normal it will be generally sufficient for immediate needs. Much however depends on the character of this month's rain. Stocks are not great but are believed to be generally sufficient. Prices which were already abnormally high owing to the injured spring crops and, in the eastern districts, to export to Bengal and apprehensions of drought, rose rapidly till rain fell. They are now falling somewhat but are still very high. A material fall is not to be expected until prospects are more fully assured than they are at present and it will probably be retarded owing to reduced area under autumn crops and substitution of late for early crops both of which factors will delay replenishment of stocks. If rains continue favourably the Local Government does not think that any distress need be anticipated. Spring fodder was short and little is now left; where fodder crops are not grown cattle will have to depend largely on grass; should grass dry early, a scarcity of fodder may be temporarily serious in October and November.

*Punjab.*—The general agricultural situation in the Punjab up to end of July is not unsatisfactory. Rainfall has been very deficient in three or four districts only, and these, for the most part, are secure from famine, and no real cause for anxiety at present exists; but, of course, much depends on subsequent rain. Stocks of grain are everywhere sufficient; and prices, though high in parts of the Province, are not, as a rule, alarmingly so.

*Burma.*—General agricultural situation in Lower Burma good, except in part of Tharrawady where some land remains unploughed for want of rain and in Thayetmyo where the rice crop is poor for same reason. The price of rice is generally very high owing to demand for export and not to shortage. Stocks below normal in some districts owing to overselling. In Upper Burma prospects in most districts are fair and crops will be normal if rain falls shortly. In some districts, owing to deficiency of rain, crops have been injured but only the *sesamum* crop has failed entirely in one district. Prices are high in Shwebo owing to demand from Mandalay for grain. In the Local Government's opinion there is no cause for serious anxiety anywhere.

*Eastern Bengal and Assam.*—The Director of Agriculture reports as follows on the general agricultural situation:—The jute area has increased by 10 per cent. this year and harvesting is now in progress in all districts. The prospects of crops are good but prices are less than the past year. Reaping of *bhadoi* rice has commenced in some districts and prospects are good except in parts of Dacca, Tipperah, Noakhali, Rangpur, Sylhet and Kamrup where floods and heavy rain have done some damage. Transplanting of winter rice has commenced. Prospects of sugarcane at present are fair on the whole. The weather has been favourable and there is at present no sign of deficiency of rainfall. The Brahmaputra and the Surma are somewhat above the normal level but the Ganges is rather low. Prices of common rice are still excessively high; the average price of local rice for the whole province is now seven seers three chattaks against eight seers two chattaks, the corresponding sale price for last year. The average price of Rangoon rice for the whole province is seven seers nine chattaks against eight seers ten chattaks last year. For the last two weeks prices have been showing a slight but distinct tendency to fall. Cultivators everywhere are holding stocks for their own consumption. High prices are mainly due to shortness of supplies which has existed since the partial failure of the winter rice crop of 1905-06 and to large profits realized from jute. To the end of June, 1,461,602 cwt. of Burma rice have been imported to Chittagong against 956,706 cwt. on the same date last year; the present stocks at Chittagong are about 624,490 cwt.

*Central Provinces.*—The monsoon broke a week later than usual giving sufficient rain in the Nagpur country, Chhattisgarh and Berar; but the rainfall was scanty over the north and west of the Provinces and continued scanty in these tracts until the prospects of the *kharij* harvest were gravely imperilled.

The Nerbudda Valley districts and Saugor and Damoh received only five inches of rain up to the middle of July and the Satpura districts a little more, and it was not until the end of the third week in July that the monsoon strengthened sufficiently to avert disaster; sowing was consequently late in these tracts and is only now approaching completion in several northern districts. Resowing due to crops withering for want of rain is in progress in parts of five northern districts, *vis.*, Saugor, Jubbulpore, Narsinghpur, Hoshangabad and Nimar and in Akola; a third sowing is also reported in parts of Nimar. Crops were also resown in parts of Chhattisgarh owing to excessive rain. Stocks of food grains are generally sufficient. Owing to brisk export the prices of staple food grains in these Provinces have for more than a year exceeded normal rates by about 25 per cent. Reservation of stocks against shortage of the *kharif* harvest was recently likely to further enhance prices but a tendency to fall is distinctly evident since the agricultural outlook has improved. If the monsoon continues favourable the *kharif* harvest should be normal in the north and west of the Central Provinces and in the Nagpur country; and good in Chhattisgarh and Berar. The condition of the people is good and labour is ample but wages are high. Generally it may be said that the late interruption of the rain has caused no panic and its continuance has relieved anxiety for some time to come.

*Coorg.*—Rainfall has been general and fairly sufficient throughout the Province. Agricultural prospects are generally very fair. Stocks of grain are sufficient and prices are normal.

*North-West Frontier Province.*—The rainfall during the past two months has been deficient throughout the Province and has affected the autumn sowings which are only half the normal in Kohat and Dera Ismail Khan, but normal elsewhere. The standing crops on unirrigated areas are in poor condition, except in Hazara where they are excellent. More rain is needed everywhere. Fodder is sufficient in all districts except Dera Ismail Khan. The spring crops are above average in area and average as regards outturn. Prices are so far easy but show a tendency to rise in Peshawar, Kohat and Dera Ismail Khan. The autumn crops are of minor importance in this Province outside Hazara and Kohat and so far there is no cause for anxiety.

*Rajputana.*—The almost general rain throughout Rajputana and Ajmer-Merwara during the past ten days has greatly improved the agricultural situation regarding which no further anxiety need be felt for the present. Sufficient rain for the *kharif* (autumn) sowings has been reported from all States except the central tahsils of Alwar and Kotah, nine out of twenty-four pargannahs of Marwar, and one circle in the Ajmer district. Even in these places if more rain falls soon *kharif* crops may yet be sown. Fodder is generally sufficient except in the hilly tracts of Mewar. Stocks of grain are said to be sufficient to ample for the present. Prices are nearly normal in fourteen States and everywhere easier than they were in the corresponding period of last year. Prices are as follows:—In Alwar *bejar* is 17  $\frac{5}{8}$  seers per rupee against the normal of 23 seers owing to insufficient rainfall; in Bharatpur prices are 16  $\frac{1}{2}$  seers per rupee against the normal of 24 seers; in Jhalawar 17 seers compared with a normal of 20 seers; in Ajmer and Merwara 15 and 16 seers against a normal of 18 and 21 seers.

*Central India.*—The following is a summary of special reports:—*Gwalior*:—General outlook is now distinctly favourable. The rainfall is sufficient. Prospects are good and stocks adequate. Prices are normal. *Indore*:—Recent rain has relieved the situation throughout the Indore State and has removed all cause for anxiety. Prices are rather high but are commencing to fall. *Baghelkhand*:—There was ample rain in the last week of July and general prospects are now fair. If August and September rainfall is normal, late arrival of monsoon will exert no appreciably bad effect. Stocks of grain are ample. Prices of wheat and rice are rather high owing to delay in the rains, to export, and to the indifferent spring crops. Other grains are about normal. *Bhopal*:—There has been general and abundant rain since the 20th July which has saved the situation. Prospects are good. Stocks are sufficient and prices normal. *Bhopawar*:—First

sowings mostly failed and necessity for second sowing has retarded agricultural operations in most of the Agency by a month. If rainfall continues there is satisfactory hope of good though late autumn harvest but the *makka* (Indian-corn) crop will be short in the eastern half of the Agency. Till a month ago prices were below normal and have since risen but are now falling and nearly normal. Stocks of grain are generally sufficient. *Bundelkhand* :—Sowings were late through delay in the monsoon but prospects are satisfactory. Stocks are sufficient but prices are above normal owing to heavy exports due to good prices obtainable elsewhere. *Malwa* :—Recent rainfall sufficient. Prospects are now good throughout the Agency. Stocks are sufficient for the present. Prices are slightly high owing to late arrival of the rains but not abnormally so and are now falling. If present conditions continue the autumn harvest should be fully up to the average. The general situation throughout Central India is now decidedly satisfactory and there is nowhere any cause for anxiety.

By order,

## Season and Crop Prospects for the week ending Saturday, 3rd August 1907.

**Burma.**—Transplanting is progressing in Lower Burma where prospects continue favourable. No rain fell during the week in Pakokku, Sagaing, Lower Chindwin, Yamethin and Myingyan, and only very small amounts in Mandalay, Shwebo, Kyaukse and Meiktila. Sesamum and paddy are withering in the Pauk and Seikpyu townships of Pakokku. Agricultural operations are at a standstill in the upland tracts of Mandalay; the standing crops are withering in Yeh and the Kanbalu sub-divisions of Shwebo and on the highlands in Yamethin. Rain is badly wanted in these districts and in Sagaing, Lower Chindwin, Myingyan and parts of Meiktila. The price of paddy has risen considerably in Maubin and slightly in Myingyan; elsewhere changes are unimportant.

**Eastern Bengal and Assam.**—The weather is seasonable. There was heavy rain in Chittagong, Jalpaiguri, Cachar and Nowgong and slight to moderate rain in other districts. Plucking and manufacture of tea are in progress; mosquito blight is increasing in Cachar, prospects are good in Nowgong, poor in Lakhimpur, and fair elsewhere. Ploughing for and transplantation of winter rice and harvesting of early rice and jute are in progress. Prospects of standing crops are generally good, but early rice is being damaged by insects in parts of Cachar. Gathering of potatoes in the Khasi Hills is still in progress and the outturn is very good. Prices of common rice:—Manipur 12½; Chittagong and Kohima 9; Comilla 8½; Dacca 8½; Silchar 8½; Pabna 8½; Mymensingh, Rangamati, Barisal, Sylhet and Gauhati 8; Faridpur 6½ to 8; Malda 7½; Dhubri and Bogra 7½; Dibrugarh 7½; Dinajpur 7½; Jalpaiguri, Tezpur, Nowgong and Sibsagar 7; Rampur Boalia 6½; Shillong 6½; Rangpur 6 and Aijal 5 seers per rupee. Prices have risen in two; fallen in seven; and remained stationary in the remaining districts.

**Bengal.**—Rain was general during the week, the fall having been heavy in Muzaffarpur, Sambalpur, Palamau and Cooch Behar; moderate in Hooghly, Darjeeling, Manbhum and Singhbhum; and light elsewhere. Transplantation of paddy is going on but rain is still wanted in many districts for this operation. Jute and sugarcane are generally doing well. A little damage has been done by floods to paddy and jute in parts of Burdwan, the 24-Parganas and Darbhanga and by insects in Burdwan and Nadia. In Darbhanga the number of persons gratuitously relieved in the undeclared area is 242; and in the famine area 8,667; the number of persons on relief-works is 3,080. Fodder is insufficient in parts of the 24-Parganas and Purnea. The water-supply is sufficient everywhere. The price of common rice has risen in three and fallen in thirteen districts.

**United Provinces.**—Copious and beneficial rain has fallen in nearly all districts, the falls ranging from one inch to ten inches. More rain is needed in parts of Hardoi, Sitapur, Kheri, Bahraich, Fyzabad, Gonda and Ballia. Sowing is being actively carried on and weeding is in progress. Preparation of fields for spring crops has begun in some districts. The sugarcane crop is doing well except in parts of Ballia where slight damage has been caused by insects; some injury to crops from floods is reported from Agra and Shahjahanpur. Fodder continues scarce and dear in Farrukhabad, Shahjahanpur, Hardoi, Kheri and Unao. Markets are well stocked and prices are stationary.

**Punjab.**—Good to moderate rain has fallen in all districts except Mianwali, Lyallpur and Multan where it has been light to moderate. Prices of food-grains are generally rising in Ambala, Amritsar, Sialkot and Lyallpur, and falling in Hissar, Rohtak, Delhi, Jullundur and Rawalpindi. Ploughing for and sowings of autumn crops continue. Weeding of cotton is in progress in Jullundur, and cotton sowings are still going on in Multan. The condition of the standing crops is good to average. The recent rains have benefited the standing crops in Delhi and Sialkot. Cotton is average and sugarcane is in good condition in Lyallpur. Extra spring crops are average in Multan. Locusts appeared in Ferozepore and Mianwali but did no damage. Rats are damaging crops in parts of Ambala. The condition of cattle is generally good. Fodder is sufficient except in parts of Mianwali. Water is insufficient in parts of Multan.

**North-West Frontier Province.**—Good, but partial rain, ranging from 1½ to 2 inches has fallen all over the Province being beneficial to the standing crops and autumn sowings. The standing crops generally are in good condition but are poor in Dera Ismail Khan. Autumn sowings are nearly completed but more rain is needed everywhere. The river Indus is rising. Irrigation from the Paharpur canal is in progress. Floods have occurred in the Kurram and Gambila in the Bannu district. The water-supply and fodder

are sufficient. Cattle are in good condition. Prices, except of *bajra*, are rising slightly. Prices—wheat 14½ to 20½; maize 22 to 31½; gram 15½ to 21; and *bajra* 19 to 23½ seers per rupee.

**Jammu.**—There was good rain during the week. Prices are fluctuating. Prices—wheat from 10 to 20 and maize 15 to 33 seers per rupee. The condition of the standing crops is fair. Fodder is sufficient except in the Kishtwar and Basohli tehsils where it is scarce. Land is being prepared for autumn cultivation.

**Kashmir.**—The weather is partially bright and partially rainy. Prices are almost stationary.

A break in the rains is needed in Damoh, Wardha and Chanda. Sowings of autumn crops are in rapid progress in Mandla, Narsinghpur, Nimar, Chhindwara and Amraoti; and are practically completed elsewhere. Operations were retarded in parts of Wardha and Yeotmal owing to continuous rain. Weeding is in progress everywhere and transplantation and thinning in rice districts are going on. Preparation of land for spring sowings continues in Saugor, Betul, Wardha, Akola, Yeotmal and Nimar. Germination is good and prospects are generally favourable. Fodder and water are sufficient but fodder is dear in Akola. The condition of cattle in Nimar is improving. Prices of food-grains remained stationary in ten districts and fluctuated slightly elsewhere; *juar* became cheaper by 3 seers in Amraoti. Prices are slightly dearer than those ruling in the corresponding week of last year and continue still equal to or above the scarcity level in Mandla, Wardha, Chanda, Bhandara, Balaghat, Drug, Bilaspur and Yeotmal.

Sowing of autumn crops is still progressing in places and germination is reported to be good. More rain is required for thinning operations. Prospects are generally favourable. Fodder and water are adequate. There are no marked variations in prices.

**Bombay.**—Good rain fell during the week throughout the Presidency and Thar and Parkar; it was slight in the rest of Sind. More rain is needed in parts of Sind, Sholapur, the Karnatak and Palanpur. Inundation in Sind is still unsatisfactory though the river is rising slowly. Autumn sowings generally continue. Transplantation is progressing in parts of Sind, Gujarat, the Konkan, Nasik, Ahmednagar, Poona, Satara and Rewa. Kantha. Seedlings are in good condition except in parts of Kanara and Belgaum where they have been slightly damaged by heavy rain and grasshoppers, respectively. Crops are suffering for want of sufficient moisture in parts of Sind. The fodder-supply is generally adequate. Agricultural stock is in good condition. Drinking water is sufficient. The supply of water for irrigation is improving. The quantity of food-grains purchasable per rupee is in the Karnatak 22 to 43 per cent; in the Deccan 3 to 25 per cent; and elsewhere 12 to 37 per cent less than the normal. During the week ending the 27th July 25 persons were relieved gratuitously in Belgaum.

Irrigation supplies are sufficient, except in parts of Ganjam, the Deccan, the Carnatic, North Arcot, Salem, Madura, and Tinnevely. Ploughing, sowing, weeding and transplanting are in progress. The standing crops are generally fair but some in parts of Tinnevely require more rain. \* Harvests are proceeding except in Kistna, Guntur, Kurnool, Bellary, Tanjore, Tinnevely, Malabar and South Canara with outturn poor to normal. **July.**—Plums and peaches were gathered in, the harvest being good. Apples began to ripen. The standing crop of Indian corn is in a flourishing condition and promises to yield a good harvest. The transplanting of rice has been completed this year from three to four weeks earlier than usual owing to favourable rainfall, and the prospects of a good rice crop are therefore high.

The market is well stocked and the price of food-grains continues normal. The health of the live-stock throughout the country is reported to be good.

The monsoon broke punctually and the rainfall continues to be satisfactory in character.
